

# “Arizona the Beautiful”

By Grace Abigail Chen, Grade 5

Home to creatures big and small,

A place for explorers,

Not just me, but all.

A desert where cacti grow abundantly,

A place where coatis roam happily and free.

Somewhere known as the “Copper State,”

A place not just wonderful but loving and great.

A wonderful state of everyones dream,

“Arizona the Beautiful” the Grand Canyon gleams.

So let’s thank the explorers who found our home,

And know Arizona is just as beautiful as China or Rome.

We ought to learn from the past,

Remember not to grow up too fast.

We shall look at the future with smiles so bright,

And let our discoveries be a shining light.

We will never give up,

Never lose heart,

Because Arizona truly is a work of art!
